Celebrating Womenhood!!

Today's woman is multi-faceted; she takes care of the family as well as her aspirations. There are times when she falls prey to lifestyle diseases. Women health problems are on the rise partly because of a constant race against time and partly due to sheer ignorance. International Women's Day is celebrated on the 8th of March every year to recognize the many facets of the modern woman, from caretaker to professional. There is a recent increase in health issues among women, partly due to lifestyle choices and partly due to lack of knowledge. It is no secret that women have to deal with a lot of health issues.

An interactive talk was conducted by Women Development Cell (WDC) on 9th March 2023 at SOU campus. Our speakers were eminent gynaecologists Dr. Vidula Mukesh Bavishi and Dr. Mukesh Bavishi regarding the prevailing issues faced by women and their symptoms and solutions.

Simultaneously a Health Check up Camp was also organized with association of the Department of Physiotherapy for various analysis like body composition analysis, flat foot analysis and ergonomic evaluation. The camp successfully checked 100+ female staff of Silver Oak University free of cost. After the camp assessment and post-checkup, the female participants who had issues related to postural deviation, flat foot and body composition variation were advised to consult physiotherapy OPD at Silver Oak Physiotherapy Center for further diagnosis .

SOU

FOOD CARNIVAL

The Department of Information Technology, Silver Oak College of Engineering and Technology has organized FOOD CARNIVAL on 11th March, 2023. There were 11 food stalls with participation of 50 students. Students actively participated and brought soul to the recipes, delighted everyone with their sumptuous and delicious cuisines. Faculty members and students from various departments and colleges of the Silver Oak University had an everlasting fun with the food. Shri Janak khandwala Sir, Vice President; Dr. M N Patel Ex-Vice Chancellor, GU; Dr. Saurin Shah, Vice Chancellor; Dr. Pina Bhatt , Pro Vice Chancellor; and Prof. Mit Shah, Registrar have also visited the food stalls thus proving that food can serve to connect communal bonds.

PUBLISH TO FLOURISH

"Science may set limits to knowledge, but should not set limits to imagination"

Along with Mr. Nikunj Kumar Vagadiya, Lecturer, Silver Oak Institute of Science, Silver Oak University, Dr. Manthan Panchal, Principal, SOIS, SOU, organised "CHEMORATION", a 1-day expert talk on "Publish to flourish: Strategies for scientific research and publication" at Silver Oak University. An authoritative talk was delivered by Dr. Syed Shahabuddin, Assistant Professor at PDEU and a recipient of World Top 2% Scientist in 2021 and 2022. The intended audience consisted of faculty members, research scholars, and B. Sc. and M.Sc. Chemistry students. The main motto behind organizing this talk was to update attendees about the most recent developments in scientific research and writing to be able to enable them to contribute to the field's continued growth.

NATIONAL SCIENCE DAY 2023

**THE SCIENCE OF TODAY,
THE TECHNOLOGY OF TOMORROW**

Silver Oak Institute of Science organized a two day celebration on the occasion of National Science Day 2023, under the theme of 'Global Science for Global Wellbeing'. Various science-related activities were organized in the campus. As a part of the celebration, the Institute of Science organized an elocution competition, scientific rangoli, scientific photography followed by Scientific Model making competition. It was also incorporated with the expert lectures from reputed institutes and universities. Students were able to raise awareness about the contribution of Indian scientists through expert talks and various competitions. The winners and participants of the various events were honored with the certificates and prizes.

QUIZZO

2023

Silver Oak University hosted a quiz competition "Quizo-2023" under the banner of the ASHRAE Western India Chapter on March 18, 2023. The event was organized by Mr. Hitesh Prajapati, SBA and Co-Chair, Student Activity, ASHRAE-WIC. This prestigious competition observed participation from well known institutes like ASOIT, SOCET, LDCE, CEPT, IITRAM, and NIRMA. Ms. Pooja Dave, Mr. Yash Sagar, and Mr. Nishit Patil from the Department of Mechanical Engineering of Silver Oak College of Engineering and Technology secured 1st rank and won the cash price of Rs. 20,000 in Quizo 2023.

MOTIVATION

MATTERS

“ ABILITY IS WHAT YOU'RE CAPABLE OF DOING. MOTIVATION DETERMINES WHAT YOU DO. ATTITUDE DETERMINES HOW WELL YOU DO IT. ” - LOU HOLTZ

The Silver Oak University recently organized a special brainstorming session led by the renowned speaker and life coach, Dr. Jitendra Adhia. The session aimed to inspire and instill actual insights and lifestyle practices in the students with the aim of helping them attain their goals.

The session commenced with Dr. Adhia sharing his life experiences and how he achieved success in his personal and professional journey. He emphasized the importance of self-belief, positivity, and hard work to accomplish our aspirations. Dr. Adhia's words of wisdom encouraged the students to believe in themselves and strive towards their dreams.

Dr. Adhia further enlightened the students on the significance of mental health and its effects on one's overall well-being. He enlightened the students on the negative impacts of stress, anxiety, and depression on mental health and discussed various techniques to manage stress and improve one's mental well-being. He advised the students to develop a positive attitude, a growth mindset, and effective communication skills to achieve both personal and professional success.

The session concluded with a Q&A session where the students interacted with Dr. Adhia, asked questions, and shared their thoughts and experiences.

It was an insightful experience for the students of Silver Oak University. The session not only motivated the students to focus on their goals but also instilled the necessary life skills required to achieve the same.

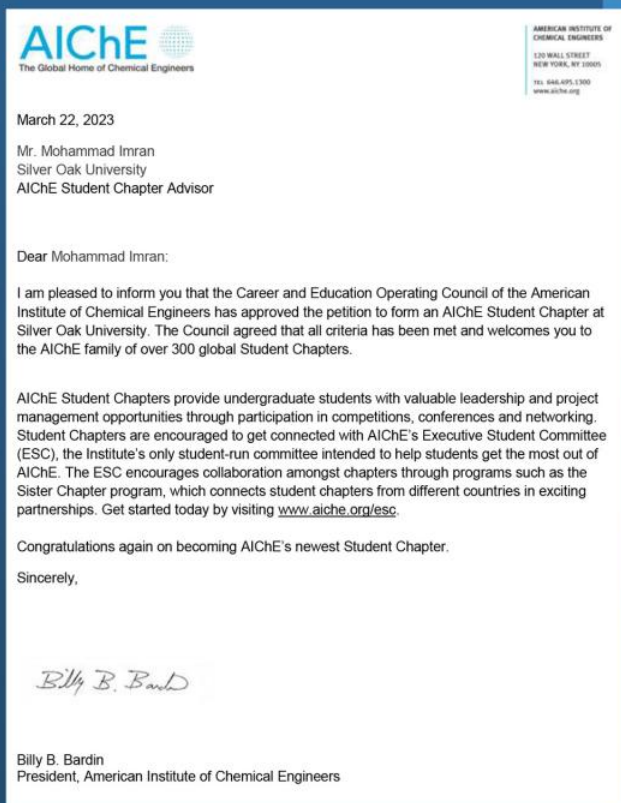

SUCCESS,

They say, is a journey, not a destination

By achieving one more milestone on the road of this journey, with immense pleasure, we are announcing that the Department of Chemical Engineering, Silver Oak University has officially achieved the student chapter status in "The American Institute of Chemical Engineers (AIChE)". Now we are a part of the family of over 300 global student chapters.

We are the 2nd university at Ahmedabad after Ahmedabad University who achieved the AIChE Student Chapter status. It gives us access to an amazing network of top professionals in chemical engineering in addition to providing a host of other valuable member benefits, including technical information, conferences and training, professional connections, career resources and discounted insurance products or personal services. Students can get ample opportunities to enhance their knowledge as well as illustrate their talent worldwide.

ACTIVITIES @ IEEE Student Branch

RACE TO TOP AWS DEEP RACER

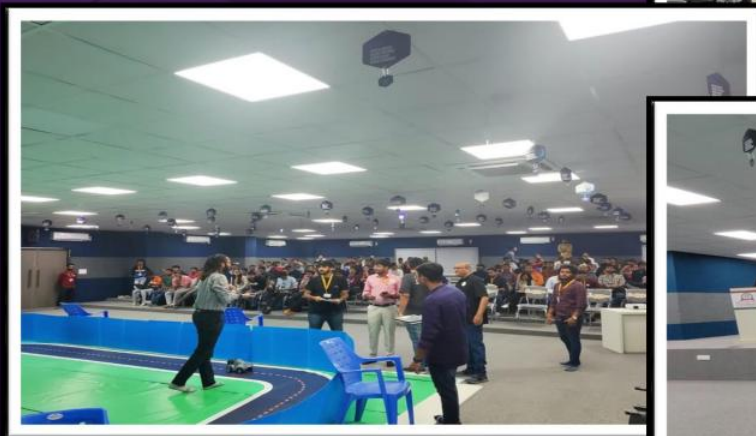

Silver Oak University, Silver Oak University IEEE Student Branch, Silver Oak University IEEE Computer Society Student Branch Chapter along with Silver Oak University AWS User Groups, hosted Gujarat's First Ever AWS DeepRacer League, "Race To Top With AWS". It provided a comprehensive platform for developers to learn and experiment with machine learning algorithms for autonomous vehicle development. They provided students with a valuable opportunity to learn about emerging technologies on 14th and 15th March, 2023 having 120 enthusiastic and innovative young developers. He then proceeded to explain the various races in the DeepRacer League and provided a general overview of the two-day event. Mr. Vaibhav Malpani kicked off his session by introducing the participants to the DeepRacer Service. Next, he presented a video highlighting the past AWS DeepRacer Leagues and elucidated the general model and working of an autonomous car, explaining all the details with the help of a 3D virtual model. He moved forward and explained the entire model building and training journey to the students along with the code and functions used in the process. He concluded his session by stating the rules of the race.

The students were given a chance to indulge in the hands-on workshop to further enhance their knowledge and begin constructing their own autonomous car models. As the day drew to a close, all the participants simulated their car models on a racetrack and submitted their algorithms to the cloud. The top 15 participants from the simulations held on the previous day's session were announced to showcase their algorithms and invited to deploy them in the car for the race. After the contest came to an end, the top 15 participants were given AWS DeepRacer T-Shirts to acknowledge their talents and diligent work. Following which, the announcers declared the winners and were rewarded with the cash prize of Rs 5000, Rs 3000 and Rs 1000 respectively. This event is considered as one of the flagship events of the Silver Oak University IEEE Student Branch considering the scale, participation, and enthusiasm in the event.

T
H

TOP WITH RACER LEAGUE

JUST A MINUTE

An exciting and engaging event entitled "Just A Minute" took place at the Apple Lab, Silver Oak University organized by Silver Oak University IEEE Women in Engineering Affinity Group on 10th March, 2023. Ms. Hotri Trivedi, the Chairperson of Silver Oak University IEEE Women in Engineering Affinity Group and student of 6th semester at the department of Computer Engineering, SOCET was the judge for this event. The event started with an introductory speech, highlighting the importance of language fluency and effective communication in today's world. The main objective of the event was to improve the language proficiency of our team members and enhance their team-building skills. The participants exhibited their speaking skills and impressed the judge with their fluency, clarity, and opinions. The teams showcased their creativity, teamwork, and communication skills. 'Team-E' was rewarded with a Netflix subscription for a month. The event was successful in achieving its objective of providing a platform for participants to showcase their public speaking skills and language proficiency.

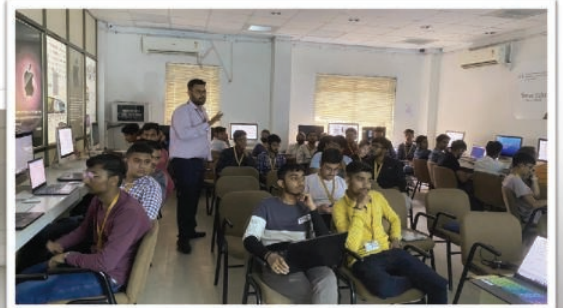

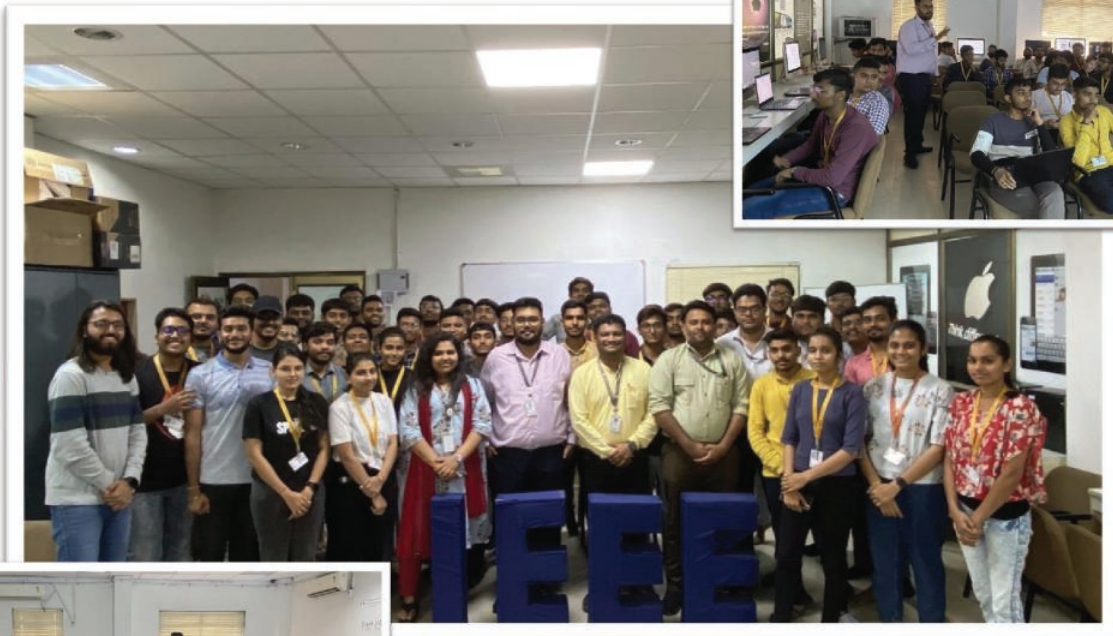

STRONG... HAPPENING... EMPOWERED!!

Silver Oak University IEEE WIE Affinity Group, in partnership with AWS User Groups Silver Oak University, organized a long-awaited celebration for International Women's Day, aiming to celebrate womanhood and foster companionship among attendees. To inspire and empower young women while also creating a safe and supportive environment for them to express their concerns, experts in STEM fields were invited to share their experiences and insights on navigating social and work life. The event was led by a group of accomplished women leaders in the field of STEM. This event was held on 24th March, 2023 at the Millennium Hall, Silver Oak University having 80 young girls and some of the women faculty members. Mrs. Dimple Vaghela was invited on stage, who spoke about the importance of freedom, choice, and having a good support system, which resonated well with the audience. The virtual appearance of Mrs. Riddhima Kapoor brought a whole new level of excitement to the event, as she introduced the participants to the fascinating world of AWS and explained how they can become AWS heroes. As the event progressed, the stage was taken over by Mrs. Poonam Patel, who shared her inspiring journey as a junior developer transitioning to a project consultant, highlighted that she delivered a captivating presentation on the intricacies of microservices architecture, sharing her wealth of knowledge and expertise with the audience, leaving them in a state of awe and wonder. The event celebrated womanhood, ambition, and companionship, highlighting the importance of diversity and inclusivity in the STEM field. Overall, it was an inspiring and empowering day that left a lasting impact on all those who attended.

101 SWIFT

SWIFT 101 was hosted by Peepal Tree Club in collaboration with Silver Oak University IEEE Computer Society Student Branch Chapter and Silver Oak University IEEE Student Branch, took place on 23rd March, 2023 at the Apple Lab, Silver Oak University having 84 participants. This edifying session was a very useful first step for the interested participants to start their journey in using the powerful, flexible and open-source language SWIFT and developing fantastic applications for Apple Devices. The session was conducted by Assistant Professor Sanket Shah, Department of Computer Engineering, SOCET, under the guidance of Dr. Satvik Khara, Head, Department of Computer Engineering, SOCET. The session informed them about the different Mac Operating Systems currently available in the market and showed the described features, highlighting the necessary system preferences. The students were introduced to iMac, and the various functions used to operate it. Moving forward, the learners launched a SWIFT compiler and embarked on their app development journey. This event presented students with a wonderful and valuable opportunity to get ahead in the already thriving industry by gaining both theoretical knowledge and practical skills in the SWIFT development field.

Let's Talk with the Googler

As Silver Oak University IEEE Student Branch always believes in empowering students not only in technical development but also in 360° development, an event entitled "Let's Talk with the Googler" was organized by IEEE SOU SB to assist the participants who are looking for an advice on how to overcome challenges and achieve your goals by the guidance of a Googler.

To grace the event, we had the presence of Mr. Parth Modi, an experienced Software Engineer currently working with Google, who has previously worked with Amazon and a dignified Alumni of SO CET. The session was conducted on 3rd March, 2023 at the Apple Lab, B-Block, Silver Oak University having 70 wonderful participants.

The event began with a gathering of all enthusiastic participants, dignitaries, and members of IEEE SOU SB exhilarated by the event. Mr. Parth Modi took the session further by asking several icebreakers which helped the participants to connect more with the speaker. He further talked about his journey. Additionally, he answered several doubts from the students and discussed the functioning of top companies like Google and Amazon. The explanation of the working of Multinational companies and their environment and culture was also conveyed. Further, he also shared about his journey at Amazon and his experience of working with the market giants. There was an interactive Q&A session where the participants asked precise questions which were answered relevantly. The session included many essential points which incorporated techniques for interview preparation from the LeetCode Platform.

STARTUP BOOTCAMP

Empowering Aspiring Entrepreneurs

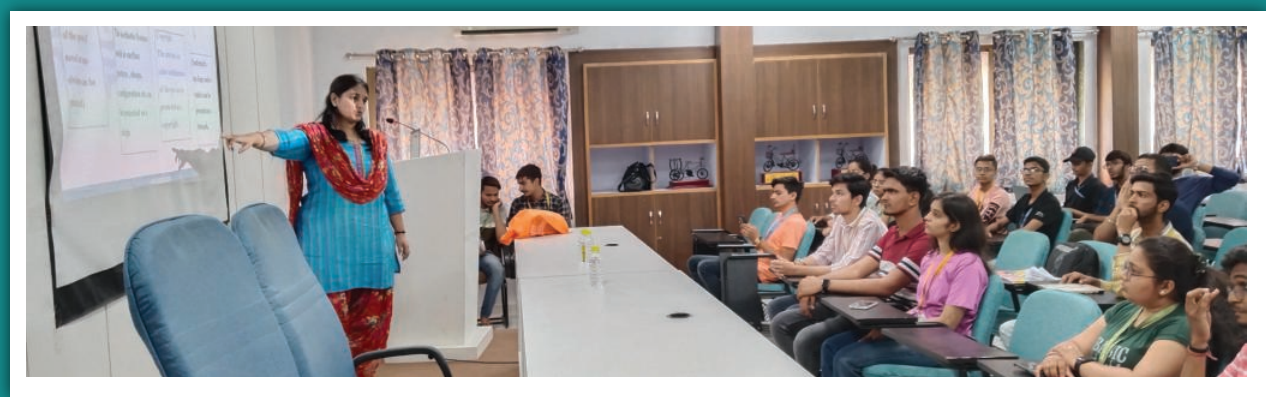

Students at Silver Oak University created a unique storyline game based on Mahabharat characters. After a few hours, the game immediately stops after the default hours. Furthermore, the runner-up startup founded a company that makes roofs out of recycled plastic that are naturally heat resistant. Both of the ten selected startups received funding of up to 2.5 lac

From the 15th to the 18th of March 2023, a Start Up Boot Camp was held at Ignite Incubation Centre, Silver Oak University where famous personalities from various industries came to explain the various stages of Startups. Additionally, Mr. Keval Kelawala - Co-Founder of Sudaksh Technology; Mrs. Anjula Mehta - CEO, IPPO; Mr. Amit Panchal - Founder, Digicobweb; Mr. Anupam Lavania - Founder, BioScan; Mr. Anand Prajapati - Consultant, Wipro Ltd.; Mr. Dhaval Patel - CEO of Infinity Digital Technologies; Mr. Durgesh Pandey - CEO, DKMS & Associates joined as an investor panel where they gave helpful insight to the 10 selected startups.

In three days, ten new businesses were born. Students at Silver Oak University learned how to build a startup company from scratch. These teams competed in front of five great industrialists in which team Playrize Games - The Rise of a New Era scored first and the team Re-Roof for Nature stood second. IGNITE provided them with prizes and incubation. They each received funding of up to 2.5 Lac each.

On 1st day Idea Generation talk was conducted by Mr. Dhaval Patel - CEO of Infinity Digital Technologies. Second session was conducted on BMC by Mr. Keval Kelawala. Third Session was conducted by Mr. Durgesh Pandey on financial aspects related to business. On the 2nd day, Mrs. Anjula Mehta gave a presentation on the fundamentals of intellectual property rights. On the 3rd day, Mr. Amit Panchal led a workshop on Digital marketing training followed by workshop by Mr. Anupam Lavania on how to pitch.

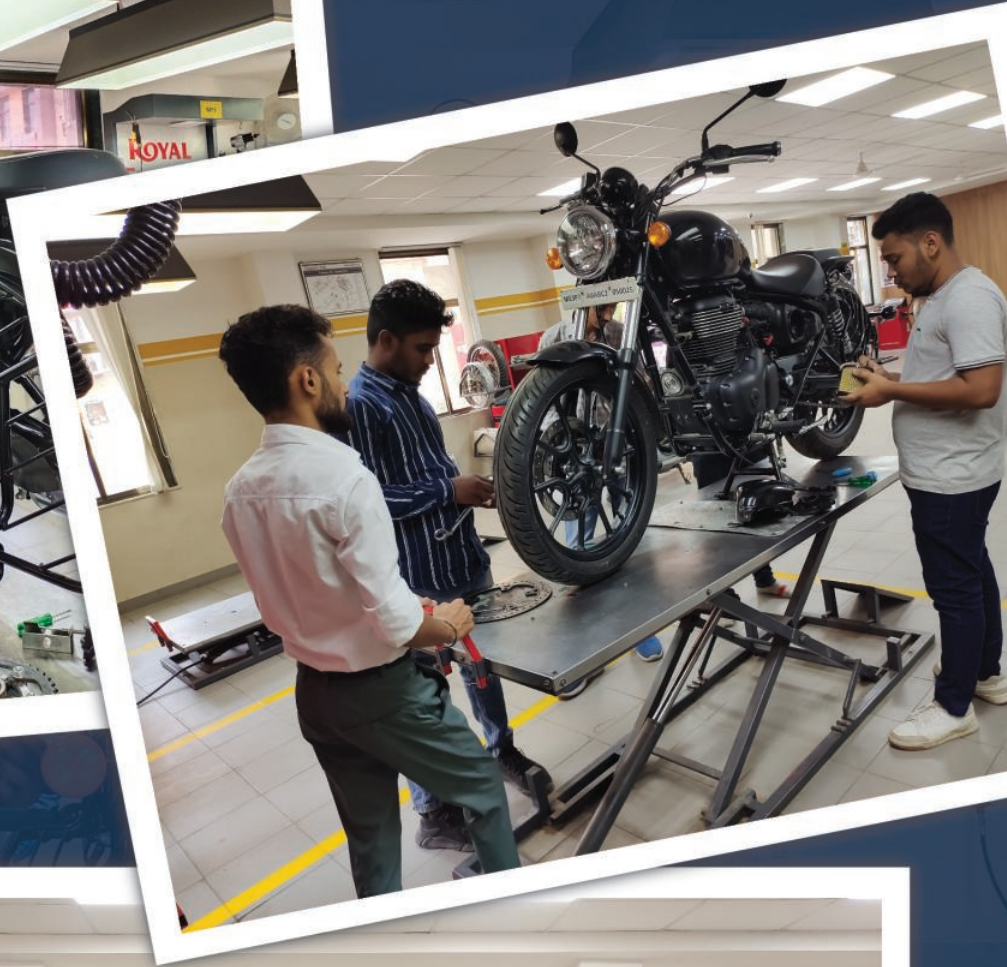

NIRMA UNIVERSITY

STUDENTS TRAINING

@ ROYAL ENFIELD CENTRE OF EXCELLENCE SOU

The Royal Enfield Centre of Excellence organized detailed product training on 350 CC UCE & J Series Model for students from NIRMA UNIVERSITY and our university. On the first day of instruction, students learned about the history of RE, the fundamentals of automobiles such as bore, stroke, compression ratio, valve timing, power flow of kick start or self-start, and frame/chassis number explanation. Later, students learned about various engine kinds in Royal Enfield, such as UCE, LS, J, and P-type engines, as well as technological specifications and operating characteristics. Hands-on overhauling of UCE 350cc, 500cc with detailed description of machine part, machine design, production process, and vehicle operation while vehicle is operating students identified the problems with the Royal Enfield ECU, Actuator, and Sensor. Students received certification after passing an exam to evaluate their work and the new skill set they have acquired during this training time.

WORLD

T B DAY CELEBRATION

A Poster presentation on "Awareness regarding tuberculosis and its prevention" was held on 24th March 2023 at Silver Oak College of Nursing on world tuberculosis day. An essential aspect of creativity is not being afraid to fail but to showcase your creativity and gauge your knowledge and awareness of various trends in nursing. The motive behind celebrating the World Tuberculosis day is to educate about the impact of TB around the world and to share successes in TB prevention and control and raise awareness of the challenges that hinder our progress towards the elimination of this devastating disease through our partners around the world.

A Visit to **Vintage** *Car Museum*

The Department of Animation and Multimedia organized a one day visit at the Vintage car museum with all staff members and students. The purpose of this visit was to learn the designs of cars and their automobile features. Through this visit, students understood the history of automobiles with different designs of vintage cars, luxury cartwheels and posh vintage. The highlighted feature was to learn the transcendence of culture from the 1990s to 21st century.

SMART VISIT

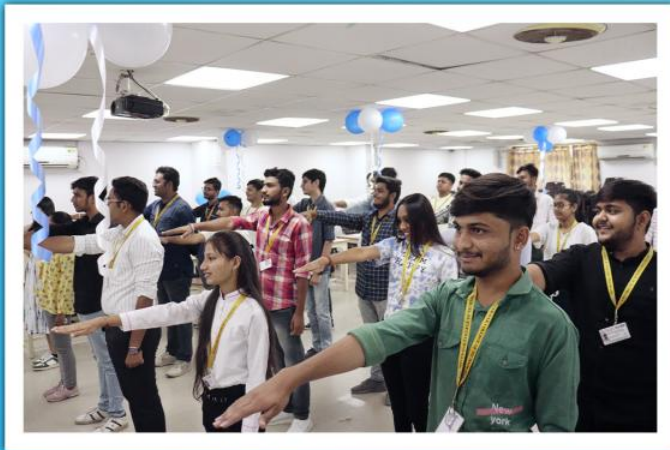

A VISIT TO SMART CITY

The Department of Information Technology, SOCET, Silver Oak University organized an industrial visit on 23rd March 2023 to Smart City, Ahmedabad. More than 50 students with our faculty member visited the campus at Command and Control Centre, Smart city, Ahmedabad. Students witnessed the use of the latest technology to manage and monitor various aspects of the city's infrastructure and services. This center is equipped with advanced tools including sensors, cameras and other monitoring devices. This command center is connected with 31125 IoT devices also includes 7200+ CCTV cameras, 126 VMDs, 159 WiFi locations, 95 Public Address Systems, ITMS, etc. This visit enabled the students to understand the real time application of IoT & AI in traffic management. We are thankful to the Gujarat Government for giving this opportunity.

WORLD *Water* DAY CELEBRATION

Silver Maple Club under the Civil Engineering Department celebrated "World Water Day 2023" which is observed on 22nd March 2023 by organizing various events like poster competition, model making competition, essay writing and debate competition. Students were made aware about the current water crisis, where 600 million people are still living without pure drinking water supply. Everyone was involved in fun activities and games. Students participated in the competitions enthusiastically. Everyone took the "Save Water Pledge" for a better future.

TRAIN THE TRAINERS

PROGRAM FOR

BSF @ RoCE

Royal Enfield Centre of Excellence had organized the Train the Trainers programme for Central School of Motors Transport, BSF Takenpur Officers from Gwalior in the month of March 2023. For the first time in history, the ROYAL ENFIELD center of excellence at Silver Oak University hosted a three-day train-the-trainer programme for BSF officers. Silver Oak University is very proud and dignified to have all BSF officers on campus. During those three days, they discovered everything there is to know about ROYAL ENFIELD, including RE history, Auto Basics, UCE, LS, J, and P-type engines, along with technological specifications and operating characteristics.

A WORKSHOP ON

"LATEST TRENDS IN TECHNOLOGY"

A workshop on "Latest Trends in Technology" was organized by Ignite on 23rd March 2023 in collaboration with Ms. Bhumi Sharma - CEO, Techno IT Hub and Ampro for Computer Engineering and IT department students of semester 4. It covered a wide range of topics such as artificial intelligence, block chain, virtual reality and cyber security. The speakers provided valuable insights into how these technologies are shaping various industries and how businesses can leverage them to stay ahead of the competition. Participants gained knowledge on how these technologies can be applied to various industries and their potential impact on the future of work.

A VISIT TO BLUE RAY AVIATION

The Silver Oak College of Aviation and Aeronautical Engineering department of the Silver Oak University visited Blue Ray Aviation in Mehsana on March 29, 2023. The visit was organized under the Aviation Club "Eucalyptus", which is aimed at providing practical exposure to our students beyond the classroom setup and academic program.

The visit was attended by 2nd and 3rd year Aeronautical Engineering students, 1st-year Aircraft Maintenance Engineering students, MBA and BBA Aviation students. Prof. Hardik Vala and Prof. Dhruv Panchal from the Aeronautical Department and Mr. Premasish Priyambad, Mr. Ranjan Raval, and Ms. Durdana Ansari from the Aviation Department, SOCAT, were accompanied by 70 students.

The visit began with a warm welcome from the staff members of Blue Ray Aviation, followed by a detailed explanation of various types of aircraft, including Cessna aircraft and an eight-seater aircraft. The students were shown the structures and workings of different parts of the aircraft. They were also taken to the flight simulator room, where they were taught how to operate the flight simulator and given the opportunity to try it themselves. The students also had an opportunity to interact with the staff members and ask questions related to the aviation industry.

PYTHON - DJANGO

WORKSHOP

A one day workshop on "Python & Django Web Frameworks" was organized by the Department of Information Technology, SO CET, under the White Oak Club, SOU on 18th March 2023. An Expert Talk was delivered by Mr. Alkesh Kaba, Sr. Software Developer and Corporate Trainer of CREAT SOLUTIONS. 94 students actively participated in the workshop. The objective was to deliver a hands-on session to students using Django framework and create web applications using python. Prof. Jaimin Dave, Vice-Principal, SO CET and Prof. Narendra Mahavadia, Principal, diploma engineering also dignified the occasion and encouraged the participants.

OUTSMARTING CYBER SECURITY

No technology that's connected to the internet is unhackable. In verge of addressing this growing concern around cyber security, a seminar on "Cyber Security" was organized by the Department of Computer Engineering and Information Technology of Aditya Silver Oak Institute of Technology on March 20th, 2023 at C V Raman Hall, Silver Oak University to educate individuals on how to protect themselves from cyber attacks. The seminar was attended by over 250 individuals, including students and faculty members. It covered a wide range of topics related to cyber security, including network security, data encryption, and threat detection. Expert speakers shared their insights and knowledge on the latest trends and techniques in cyber security. The highlight of the event was a live demonstration of a cyber-attack by a team of ethical hackers. The team demonstrated how easy it is to breach security systems and access sensitive information. The demonstration served as a wake-up call to the attendees, highlighting the importance of cyber security and the need to take preventive measures.

SITUATION

TEST

WORKSHOPS

Situation Test Workshops at Pahal Centers

In Spite of cloudy weather and untimely rain, timely creativity and enthusiasm shown by the budding designers of Pahal Design Centers at Delhi and Lucknow while preparing for the situational tests of NIFT and NID knocking at the door, a three hours workshop was conducted by Prof. Himanshu Singh from Silver Oak Institute of Design, who himself is a pass out from NIFT Gandhinagar and a fantastic motivator; the students bloomed with confidence and energy prior to their final rounds at NIFT and NID.

Another session was conducted by him for almost 30 NIFT aspirants who were wonderfully explained the traits for gaining success in Situational test rounds of NIFT with 3D model examples and workshops on making 3D models using design craft materials.

TECH REEL

COMPETITION

@ASOIT

A Tech Reel competition was held on 25 March 2023, where participants presented their technology focused projects, inventions, or innovations to a panel of judges. This event provided an opportunity to tech enthusiasts and students to demonstrate their skills, creativity, and problem-solving abilities in a competitive setting. Participants prepared a short video or presentation that highlights the features of technical content, along with any relevant data, statistics, or success stories. Judges evaluated the reels based on criteria such as innovation, feasibility, impact, and overall presentation. Tech Reel event was organized by the department of Computer Engineering and Information Technology of Aditya Silver Oak Institute of Technology, Silver Oak University, and focused on areas of technology such as artificial intelligence, cybersecurity, or sustainability. Around 160 students participated in the event and winners were felicitated with the cash prizes upto Rs 2000/- .

AN EXPERT SESSION ON DEEP LEARNING

Department of Computer Engineering and Information Technology of Aditya Silver Oak Institute of Technology in association with White Oak Club organized an expert session on "Deep Learning" on March 25th, 2023 at Ignite auditorium, Silver Oak University. The session aimed to address the growing concerns around deep learning and to educate individuals on how to use deep learning techniques to solve day to day life problems. The session was attended by over 100+ students and faculties. It covered a wide range of topics related to Deep Learning, including Artificial Intelligence and Machine Learning. The session was conducted by Dr. R. A. Thakkar. He shared his insights and knowledge on the latest trends and techniques in Deep Learning.

Array of Posters

The Department of Information Technology, SO CET, under the White Oak Club, SOU has organized a POSTER PRESENTATION COMPETITION on 11th March, 2023. There were 15 groups with participation of 50 students. Young learners displayed their artistic and technical skills through an array of posters with immense zeal and enthusiasm. Judges Dr. Rahul Vaghela - HOD, ASOIT-IT and Dr. Premal Patel and the students from various departments glorified the occasion and encouraged the participants. Dr. Vikas Tulshyan - HOD, SO CET-IT had graced the valediction and distributed the certificates.

TECHNICAL

SEMINAR

@ SOIS

"Somewhere something incredible is waiting to be known"-Carl Sagan

Keeping the above-mentioned quote in mind, the Department of Physics, Silver Oak Institute of Science (SOIS) and Center for Continuing Education (CCE) successfully organized a one day state level technical seminar on "Applications and potential research scopes of space technology for societal benefits" on 28th March 2023. Participants took part in this seminar from various universities across national and international level. The objective of the seminar was to educate students about applications and research opportunities in the area of remote sensing. This programme also allowed the participants to interact with eminent speaker Dr. Shiv Mohan (Ex Project Director RISAT-UP, Ex SAC-ISRO/ PLANEX-PRL about the possible career opportunities in this area. The Programme was inaugurated by Dr. Devansh Desai, HoD-Physics, SOIS. And the certificate distribution was graced by Dr. Manthan Panchal-Principal SOIS, Prof. Vikrant Baxi- Assistant Prof. Physics Department, SOIS.

A SESSION ON CORONA RENDER (3DS MAX)

The Department of Animation and Multimedia organized a workshop on "Corona Render (3DS MAX) on 25th March 2023. The session was conducted by Mr. Krutharth Parmar. The purpose of this workshop was to get an overview of the software 3DS MAX and the render engine corona. Through this workshop, students understood the corona render as a user friendly renderer in the architecture visualization industry. The students acquired the working knowledge of render material, its settings and uses of corona render. They also learned its uses for realistic walk through and architectural views.

PMEGP

AWARENESS PROGRAMME

Mr. Sanjay. G. Hedao- Director of KVIC Ahmedabad & Shri Ajay Rajyapal- Assistant Director of KVIC Ahmedabad had visited our campus. Mr. Ajay briefed about Pradhan Mantri Employment Generation Programme. He informed the requirements for enrolling in the programme as well as how they would support start-ups.

Shri Sanjay delivered his talk on the manner in which one can take the maximum benefit of attending college and the ways which can be adopted by the students to be away from drugs. He further informed how KVIC is helping village women in earning and thus contributing to the development of the economy.

Workshop on SOLID WASTE MANAGEMENT

The Civil Engineering and the Chemical Engineering departments of the Silver Oak University had organized a 5 days workshop on "Solid Waste Management" co-ordinated by Prof. Darshika Shah, HOD. Dr. Suhas Doke and Prof. Muzzamil Mansuri were the key speakers at the workshop. This workshop aimed at manifesting the nature and components of waste generated by households and business places and how to reduce, reuse, recover, recycle and composting processes suitable in managing the challenge. These waste management options should be integrated in a sustainable framework so as to deal with the imbalances in the ecosystem.

SEMINAR ON

INDUSTRIAL GAS TURBINE, POWER SYSTEM & ENERGY CONSERVATION

To empower lifelong learning with knowledge and innovation, the Aeronautical Engineering Department at College of Technology, Silver Oak University, successfully organized a One-Day Technical Seminar on Industrial Gas Turbine, Power System, and Energy Conservation under the Center for Continuing Education. The seminar witnessed a remarkable turnout of participants, including students from all the semesters of Aeronautical Engineering.

Shri. Ramesh Chauhan shared his expertise and 37+ years of experience in power plant operation, maintenance, and simulator training with our attendees. The seminar also delved into ways to conserve energy and reduce carbon emissions, emphasizing the importance of sustainability and innovation in today's world.

EDUCATION VISIT

@

SOIS

Education visit has its own importance in the career of a student by providing an excellent opportunity of interacting with laboratory industries. Exposure to laboratory industrial environments benefits the students by exhibiting the potential and functional opportunity of various sectors of the field. The Department of Biotechnology, Silver Oak Institute of Science provided a valuable prospect to the 6th semester students of B.Sc and 2nd semester students of M.Sc by organizing a 2 day visit to Unipath during 23 rd - 24 th March 2023. In addition to imparting knowledge of the industrial environment to the students, this education visit at UNIPATH aims to go beyond academics and enable students to upgrade their skills using new concepts obtained during the tours, talks with the company personnel. The main objective of the laboratory industrial visit was to showcase the practical workings of their theoretical learnings and recent advances in diagnostics and research. Thus supplementing theoretical knowledge for a successful professional career.

WORKSHOP ON TECHNOLOGY VISION 2047

Gujarat Council on Science and Technology (GUJCOST) and Technology Information Forecasting and Assessment Council (TIFAC) had organized a brainstorming session on "Workshop on Technology Vision 2047" on 27th -28th March 2023 at Gujarat Science City, Ahmedabad. This workshop focused on Industry 4.0 (Artificial intelligence, IoT, Drones, Robotics), Pharmaceuticals, Biotechnology, Automobiles, Agriculture, etc. emerging fields of industry to have Technology Vision-2047. Dr. Urja.Pandya - Associate Professor, SOIS, Mr. Swapnil Vegad - Assistant Professor, ASOIT, Mr. Keval Bhavsar - JRF, ASOIT, Mr. Alaap Jagdale - Assistant Professor, ASOIT participated in this 2 days of workshop. Our students from SOIS (Harshit Pandey, Prapti Shah, Jenil Jalgariya, Vishwa Mewada and Aarti Ranpariya) and SOCET (Dhrumil Vora) actively participated in the student conclave where they shared their vision for India and crystallized craziest ideas which will bring technology leadership to our nation. We are gratified to organizers for conducting such an intuitive and energizing event.

SSIP HACKATHON 2.0

Ignite team is happy to share that two teams from Silver Oak University are selected in the Regional round and going for the final round in Azadi Ka Amrit Mahotsav Hackathon 2022. In the final round, the teams have to solve any problems faced by the government within 36 hours.

BRIEFING OF

RoCE

TO THE DIPLOMA ENGINEERING STUDENTS

The Royal Enfield Centre of Excellence organized a workplace training center tour for diploma students of our university. Over 100 students visited the Royal Enfield Training Center. Mr. Kartik Patel led the visit, during which he discussed the significance of practical knowledge in modern society and how this training will help them advance in their careers. Students were shown the most recent advances used in training centers and how it acts. The students were educated on the changes in BS standards, how emission laws are becoming more stringent year after year due to increased pollution, and how a student can build a career in the industry of automobiles.

FROM SETBACK TO COMEBACK

Ms. Nikita Maheshwari addressed students about the failure of her first business venture and how TATKAL LORRY was born. She also shared with the students about the lessons she'd learnt from her failures and how she bounced back with another company that is now succeeding to new heights. Some of the reasons she mentioned behind her failure were not researching the market accurately, not advertising herself correctly and making items or launching services must be based on consumer needs, not on personal preferences.

She apprised the students as to how consistent and precise their research should be. To illustrate, she gave the example of a successful movie director of Yash Raj Films mentioning his struggles that he faced since the age of 15 on the path of being successful. Overall it was an informative and interactive session followed by questions and answers.

INDUSTRY-ACADEMIA LINKAGE THROUGH INDUSTRIAL VISIT

The Civil Engineering Department of Silver Oak University had organized an industrial visit to "JK Lakshmi Cement Grinding Plant, Kalol " for the students of 4th Semester. Students had this great opportunity to witness various cement manufacturing methods which helped them to gain technical knowledge. Main aim of the industrial visit is to provide an exposure to students about the practical working environment. They also provide students a good opportunity to gain full awareness about industrial practices. Through this visit students get awareness about new technologies. Mr. Naran Barad there explained about the manufacturing process of cement, equipment which are used in the process, different plants, and their storage. After the plant visit, a presentation was arranged about the corporate social responsibility where they are involved in various activities. At the end of this site visit, as a sweet gesture a plant sapling was planted on behalf of Silver Oak University in their garden area. The students get the knowledge of the methods and processes involved in collection, separation and storage of material in the cement industry.

SOU FACULTY AS AN EXPERT

Dr. Moksha Satia, Assistant Professor at Aditya Silver Oak Institute of Technology, was invited as a keynote speaker by Gujarat University, Ahmedabad to deliver a Symposium on "Impact of COVID - 19 Pandemic " on 4th March '2023.

The symposium offers many potential researchers to talk about the recent Covid- 19 Pandemic. Dr. Moksha Satia delivered a talk that revolved around two key points

- 1) Impact of Covid-19 virus on the Indian Film making industry
- 2) Analysis of steps taken by Indian Government to stop content the novel coronavirus

The central objective of this talk was to spread the realization about the mark which Corona Virus has left behind in various ranges out of which Film Industry was enfolded. The final result done by the specialist after research concluded that with suitable ways, 75.52% individuals could stay without being infected. Although more than 84% of people are infected, the only remedy is to declare a lockdown to stop the spread of Covid-19.

Hence, this expert session helped the listeners to gain a deep insight and knowledge about the impact of COVID - 19 on Film Industry since Dr. Moksha has tremendously delivered a mathematical model which was researched and designed by her.

A Workshop on

DIGITAL PAINTING

FIGURE DRAWING

The Department of Animation and Multimedia conducted a session on "Digital Painting Figure Drawing" on 18th March 2023. This session was delivered by Mr. Parth Kapadia, Graphics faculty and Technical Trainer. The purpose of this session was to understand the art of figure drawing with its skills. Through this session, students understood about the intricate process of sketching a figure, starting from the basics of gesture drawing to a stick-man and then finally to a full-fledged Bulky Human Figure.

Making A Naari Healthy!!

Mr. Anuj Rathore - Director of Healthy Naari Company, a revolutionary health Tech based Start-up offering solutions to many women's problems. He provided a quick overview of the current issues women experience with respect to menstruation, including PMS, PCOS, and PCOD, to name a few.

Healthy Naari is a women's problem-solving business that offers 100% organic, rash-free sanitary napkins. He discussed his initiative, "NIDAR NAARI HEALTHY NAARI HAQ SE NAARI" which emphasizes on how menstrual talk should be normalized and raises awareness of the fact that stress, depression, and sadness are common during this time. He stated that we should encourage "dignified healthcare" because today's ladies still do not receive respectful medical care. They are also going to villages to promote it.

A session on **COMMUNICATION SKILL** with **RJ URVASHI SHRIMALI**

Communication skill is one of the most important attributes a designer should possess as every designer needs to describe the concepts of their designs transparently. In today's era, spontaneous communication skills would help a designer to connect well with their clients. And this is where Silver Oak Institute of Design took a unique initiative by bringing eminent personality Ms. Urvashi Shrimali who is an RJ by profession, to interact with its budding designers so that the spontaneity and energy level of the RJ can be percolated among the students and they can draw enough motivation from her life which demands lots of creativity. The program was attended by all students and staff members of SOID on 29th March which shaped it as a grand success.

Visit at Hastkala Art and Craft Exhibition

An educational visit was organized on 24th March 2023 for SOID students and faculties at Amdavad Haat located in Vastrapur. The purpose of this visit was to inculcate enough exposure among students related to handicrafts design in India. The trip was highly successful as the students interacted with the artisans and gained enough insights of the handicraft world and the making of handicraft designs and use of handicraft materials in India.

- AN EXPERT TALK ON - **ADDICTION & LIFESTYLE DISORDERS**

Silver Oak College of Physiotherapy organized an expert talk under Kalpavriksha Club on the topic "Addiction and Lifestyle Disorders" on 3rd March 2023. Dr. Jitendra Anand addressed the students on Lifestyle disorders like diabetes mellitus, obesity, hypertension etc. and helped the students understand their effects on the human body. Dr. Anand further briefed the students on addiction where he explained about its effects and consequences on an individual and family due to the addiction of alcohol, cocaine, cigarettes, drugs etc. and also talked about the ways to cope up with its withdrawal.

Activities @ **TRAINING & PLACEMENT** CELL

Placements

Deep Kamleshbhai Parmar
(BE MECH ASOIT 2023)

AS ENGINEERS

Patel Shreyanshi Amit
(BE AERO ASOIT 2023)

Hitech digital solutions LLP

With its dedicated placement cell to enhance placements every year and expand industry contacts, Silver Oak University is a preferred institute for the acquisition of talented students from campus due to which in batch 2023 and 2022, total 53 companies approached for campus placement. Some of the notable recruiters were Fingertips Data Intelligence Solutions Pvt. Ltd., Home First Finance Company (HFFC), Codeforce 360, IRM Energy, ICICI Bank, Bosch Rexroth (India) Pvt. Ltd., GTPL Hathway Ltd., Mehta CAD CAM Systems Pvt. Ltd. and other notable companies. The highest package offered was 8 LPA by Fingertips Data Intelligence Solutions Pvt. Ltd., and the average package was 2.5 LPA. The highest package in which students got selected was 3 LPA that was offered by Trellissoft Engineering Services Pvt. Ltd. In the month of March, 7 students got selected from the 2023 batch in Trellissoft Engineering Services Pvt. Ltd. as engineers, Hitech Digital Solutions LLP and CL Tech Solutions.

FUN LEARNING WITH CRT-SDP!!

Learning is no more a headache or pressure for B.Tech & BCA semester 2 students, as the Training & Placement cell started Learning programs like SDP (Student Development Program) for B.Tech CE-IT and CRT (Campus Recruitment Training) for BCA on 29th of March 2023. Under these two programs we have trained our B.Tech 2nd semester students and BCA 2nd semester students to make them industry ready. Training and Placement cell has conducted lectures on various topics like Professional Etiquettes, English proficiency, Resume Writing, Interview Skills, Importance of Soft skills, soft skills as well as Aptitude sessions to make them ready to survive and behave in the corporate sector jobs while pursuing internships. Apart from conducting lectures we even test them by conducting various technical tests like- Aptitude tests, resume writing tests and mock interviews. Training & Placement cell makes sure that students are mentally, academically and technically prepared for undergoing internships at corporate sectors. More than 75 companies visited our university and wished to contribute as a premier recruiter.

ADDED JEWEL IN SILVER OAK'S CROWN

Silver Oak University signed an MOU with Edunet Foundation on 13th March 2023 for the SAP sponsored by Code Unnati Centre Of Excellence on emerging technologies to train students of B.E. and B.Tech from CS, IT, Electronics, Electronics & Communications, Instrumentation, Mechatronics and allied circuit branches. Edunet is a non-profit organization with multiple programs, sponsored by government and corporate entities, which are offered free to learners across the education spectrum, including but not limited to the Code Unnati Program.

Expert Session @ TPO

On 3rd March 2023, TPO conducted Saptarshi Academy Expert Session on insights and overview of Vlsi/Semiconductor Technologies For B.Tech/BE - CE/IT, BCA, MCA students. Over 120 students attended the session. Saptarshi Academy, An initiative of Saptarshi Advanced Technologies Pvt. Ltd., as a Vlsi Training Institute that offers skill-based programs imparting world-class education and training to the students in various facets of semiconductor or chip development.

STUDENTS ACCOLADES

Abbas Kappadia

The Silver Oak University was enchanted when its student Abbas Kappadia of BBA Semester 2 participated in a State-level tournament which was organized with the purpose of selection for Nationals 2023. It was held at Shree Muktajeevan Auditorium, Maninagar and had active participation from districts such as Rajkot, Surat, Ahmedabad, Vadodara. Abbas managed to score 3rd place in the 80kgs Youth Men category, confirming his ticket to the 2023 Nationals which will be held in July later this year, at the JKISC indoor stadium in Srinagar.

Vishwam Shukla, Kalindee Pujara, Vigyanshi Tripathi and Devanshi Patel

The students of BA Psychology Vishwam Shukla, Kalindee Pujara, Vigyanshi Tripathi and Devanshi Patel presented their research papers on topics which represent the current issues like psychological distress in employees in the private sector, mental health in old-age people living in old-age homes, and prisoner aggression at an international conference organized by the Indian Academy of Applied Psychology, Delhi.

Mr. Smit Panchasara, Mr. Neel Bharadia, Mr. Siddhant Patel and Ms. Dhruvi Sharimali

Silver Oak University feels extreme pleasure to share that two projects namely "Spider: A Security Device" - A GUJCOST Funded Project and "An Intelligent Garbage Terminator" - A BARC Mentored Project, from the Department of Mechanical Engineering of Aditya Silver Oak Institute of Technology were presented by four students, namely Mr. Smit Panchasara, Mr. Neel Bharadia, Mr. Siddhant Patel, and Ms. Dhruvi Sharimali under the mentorship of Prof. Swanil Vegad, at the EV AND ENGINEERING GUJARAT EXPO 2023 in front of various industrialists, academicians, and prominent investors. The event took place at NSIC Ground, Rajkot, from March 17-19, 2023.

FACULTY

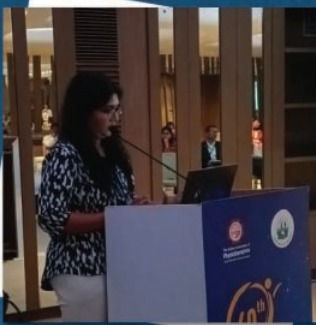

FEAT!!

Dr. Jay Dave

Dr. Jay Dave, Associate Professor at Department of Computer Engineering, Silver Oak College of Engineering and Technology was invited to be a part of Technical Program Committee and contributed as a reviewer of Congress on Control, Robotics and Mechatronics (CRM-2023) which was organized on 25th and 26th March, 2023 by Modi Institute of Technology, Kota, India which was technically sponsored by Soft Computing Research Society.

Dr. Pranidhi Thakore

Dr. Pranidhi Thakore, Assistant Professor at Silver Oak College of Physiotherapy represented Silver Oak University in a poster presentation in the 60th Indian Association of Physiotherapy conference on the topic "Correlation between Pes Planus and Anterior Knee Pain among Obese Homemakers".

Dr. Rupal Shah

Dr. Rupal Shah, Head of Microbiology Department SOIS, SOU had attended the National Conference on MICROBIOMES TO MACROMOLECULES: CONNECTING THE DOTS held at Department of Microbiology and Biotechnology and a national seminar on "Design and Development of Digital Content: In the context of MOOCs" held at Department of Zoology, School of Science, Gujarat University under the flagship of G20 which was organised by EMRC, Gujarat University in collaboration with CEC, New Delhi in order to achieve benefits in upgrading the skills of academicians, also enhancing the professional development of Academicians.

She also has credit of attending and successfully completing a one week FDP, with the theme, "Reinvigoration of Laboratory accidents and Good Laboratory Practice" organised during 13th to 18th March 2023 by Department of Microbiology, Silver Oak Institute of Science. She had chaired as a co-convener of the FDP.

Dr. Suhas Doke

Prof. Suhas Doke, Assistant Professor at Chemical Engineering department has been conferred with Doctor in Philosophy (Ph.D) degree in the field of Chemical Engineering from Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat. He received his doctorate on the thesis titled "Synthesis, characterization, and modification in silica nanoparticles, aerogels, and hydrogels".

Mr. Sagar Patel

Mr. Sagar Patel honored with the gold medal in Master of Science -Biotechnology on 5th of January 2023 in Gujarat University in the presence of honorable Governor of Gujarat Shri Acharya Devvrat; Shri Rushikesh Patel - Minister of Health and Family Welfare and Medical Education, Higher and Technical Education, Law, Justice, Legislative and Parliamentary Affairs; Shri Praful Pansheriya - Minister of State of Parliamentary Affairs, Primary, Secondary and Adult Education, Higher Education; Dr. Himanshu Pandya - Vice-Chancellor; and Dr. Piyush Patel -Registrar.

Prof. Rakesh Patel

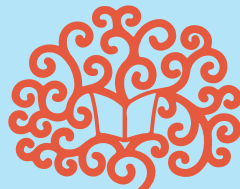

Prof. Rakesh Patel from Electrical Engineering department of Aditya Silver Oak Institute of Technology has successfully completed the course of "Basic Principles of Design : A Collaboration of Adobe and IBM" on March 31, 2023. This credential earner understands foundational visual design elements including emphasis and contrast, color, balance, proportion, rule of thirds, alignment and proximity cohesion through repetition, and consistency. This will enable him to use these skills as a foundation to be applied in future projects at work.

Prof. Manan Pathak

Prof. Manan Pathak, Assistant Professor at the Electrical Department at Aditya Silver Oak Institute of Technology presented a research paper entitled "FEASIBILITY STUDY FOR IMPLEMENTING SMART INTERACTIVE STREET LIGHTNING UNDER SMART CITY CONCEPT" in 9th International Conference and Exhibition on Smart Energy and Smart Mobility under India Smart Utility Week 2023 organized by India Smart Grid Forum (ISGF) at New Delhi from 28th February to 4th March 2023.
